2024 – Present

---

## Experience

### Electrolux Poland

#### Position: IT Support

June 2025 - present

- Analyzed and processed data to support IT and business operations using Excel and R (via RStudio IDE).
- Developed, improved, and maintained scripts and automation solutions to streamline daily tasks and increase team efficiency.
- Worked with various file formats and automation tools to optimize data structure and workflow processes.
- Contributed to the implementation of cloud-based solutions and the adoption of new technologies within the IT environment.
- Collaborated effectively within a remote, international team, ensuring clear communication and successful project delivery.

### Freelance E-commerce Business Owner & Consultant

2018 - present

- Operate an independent business focused on importing wholesale products from China and selling them through Shopify and other online marketplaces.
- Maintain daily communication with suppliers and customers, negotiating terms and ensuring high service quality.
- Design, build, and manage Shopify-based online stores, supporting small businesses and startups in launching and growing their e-commerce operations.
- Provide consulting services in product sourcing, logistics, and sales process optimization for e-commerce businesses.

### ENYO Sebastian Stolarski
